

Keep Yourself & Others Safe

Properly Use Reusable Face Masks

Wash your hands before putting on your mask.

Wear your mask the same way each time - with the same side facing out.

Avoid touching your mask. If you do touch it, wash your hands immediately.

Do not remove your mask to talk to others.

To remove your mask, pull the straps forward.

Wash your hands after removing your mask.

Store used masks in a plastic baggie until you are ready to wash them.

Wash your mask with hot water and detergent. Completely dry your mask before reusing it.
